

Distribution Products

Custom ESD/Vinyl packaging, cushion bags, static shielding bags, field service kits, & static document handling products.

A wide variety of ESD control products, including foot & wrist straps, ESD bench testers, ionizers, etc.

IAC Industries offers high-quality workstations, material handling systems, and productivity enhancing accessories.

The leading worldwide manufacturer and marketer of solder and related products Including LEAD-FREE materi-

ERSAscope inspection and BGA rework. Lead Free soldering irons. SMT IR rework systems.

Menda offers a complete line of ESD pumps and bottle. Also a current supplier of torque drivers, ESD vacuums, fume extraction system, and work bench accessories.

ESD & electronics packaging; large selection of stock ESD containers and material handling

Epoxy resins, conformal coatings, and thermal greases. NEW Water-Based Conformal Coating and UV Coating available.

Thermal profilers- 3, 6, and up to 20 channel units available. Monitoring systems. "Smart" Dry Cabinets

Vision techniques which maximize the ergonomic performance of a range of stereo optical microscopes.

Kyzen offers the best cleaning solutions and services in the industry. Customer satisfaction is our top priority, from evaluation, testing to implementation.

Equipment

High Speed as well as Compact and modular pick & place equipment. Automated parts storage systems. Thru-hole and odd form placement.

Aegis FactoryLogix offers an integrated suite of software modules and devices that adapt to and improve every aspect of your manufacturing operations.

The leading supplier of thermal equipment for semi-conductor packaging, SMT, and advanced materials processing

Asys /Ekra is a manufacturer of material handling system and components for the semiconductor, electronics, packaging, and assembly industries as well as stencil printers, Laser Markers, and Routers.

Schleuniger: stripping, cutting, sealing, crimping and marking of all types of wire and cable

Technical Devices Company manufacturers inline and batch cleaners for PCB, Glass, and Wafer cleaning application!

The unique Dage NT sealed-transmissive type of X-ray tube is at the heart of the Dage NT X-ray inspection systems. Industry leader for service and performance.

Nordson ASYMTEK designs and manufactures a full line of automated precision fluid dispensers and selective conformal coating systems

A leading provider of bench top and in-line AOI & high-resolution X-ray equipment.

Manufacturer of PCB test equipment including; Flying Probe, Modular and Compact ICT and Full Automation Test.
